A S T E R - Impr. Queen of the Market Wilt Resistant "Ballet Queen"

Fascinating shade of deep salmon rose; 3½" flowers borne on 15" to 20" long stems. Extremely wilt-resistant, unsurpassed for border work and cutting.

Tr. Pkt.....35c ¼ oz.....60c 1 oz.....\$ 2.25

T H R E E N E W P A C I F I C B E A U T Y C A L E N D U L A

This new family of Calendula is the result of several years work to produce a strain with uniformly larger flowers of better formation, longer and straighter stems, and more resistance to summer heat. The colors are clear and brilliant, the petals longer and more graceful, and grow to about 6 in. taller than most other varieties.

Persimmon Beauty. A true persimmon-orange of unusual brilliance and size. The very long, wide petals give the flowers a much more graceful appearance, and the centers are well covered with wide incurving petals, each with a delicate brown tipping when they first open.

Lemon Beauty. Of the same ideal flower and plant characteristics as Persimmon Beauty, but of the purest lemon color.

Apricot Beauty. A far better apricot Calendula than any heretofore seen. The attractive two-toned effect is more clearly pronounced, together with the large flowers, long stems, and long petals of the other two new kinds.

Each: Tr. Pkt.....20c ¼ oz.....35c 1 oz.....\$ 1.25

Formula Mixture. Above 3 varieties.

C O S M O S S E N S A T I O N "Radiance"

Winner of the highest award in the '48 All America trials, Radiance introduces two entirely new colors in Sensation Cosmos. Striking deep rose with rich crimson zone. Early blooming and flowers are extremely large. It shows new distinct zoning and promises to be ideal for cutting and garden use, it's the first big postwar novelty.

Tr. Pkt.....35c ⅛ oz.....60c ¼ oz.....\$ 1.00 1 oz.....\$ 3.50

D I A N T H U S H E D D E N S I S

An entirely new tetraploid variety combining the large open flowers of Dianthus Heddewigi with the rugged growth and long stemmed habit of Dianthus Chinensis. Well-formed 2" flowers in large numbers on 16" stems, suitable for cutting. More tolerant of extreme temperatures than either of its parents.

Westwood Beauty. Shades of red.

Finest Mixed. Outstanding introduction for '48. All the traditional Dianthus colors in this new variety.

Each: Tr. Pkt.....20c ¼ oz.....50c 1 oz.....\$ 1.50

M A R I G O L D "Cupid" (Extra Dwarf Double African, 6 in.)

An odorless foliated Marigold with large Primrose yellow chrysanthemum-like flowers, which completely cover the plant. Extra dwarf in habit. Wonderful for edging or border.

and RECENT NOVELTIES

MARIGOLD "Red Head" (Dwarf, French Single)

Winner of a Bronze Medal in the All-America trials for '48. Large single-crested flowers 2 in. across, with broad, overlapping, gracefully recurved petals opening rich mahogany, changing to auburn and later to bronzy gold. Compact, dwarf plants about 1 ft. high and 1½ ft. across, completely covered with flowers.

Tr. Pkt. 30c ⅛ oz. 50c ¼ oz. 90c 1 oz. \$ 3.50

PETUNIA MULTIFLORA "Pink Sensation" (New Type)

Winner of a Bronze Medal in the '48 All-America trials. The unusually large rose-pink flowers are borne so profusely the tall, bushy plants seem completely covered with color. The plants grow upright, 24 in. tall and are so husky they do not break open as so many bedding Petunias do.

Tr. Pkt. 50c

PETUNIA HYBRIDA NANA COMPACTA "Glowing Rose"

The intense brilliance of this new Petunia makes it the most startling of all the dwarf bedding varieties. Flowers are much larger than Celestial Rose and of an even shade, holding its intense color right up until the last flowers. The plants are of the same well-rounded mound shape as Celestial Rose and of an unusual uniformity, at no time becoming unshapely. Another advantage is its earliness and long season of bloom.

Tr. Pkt. 50c 1/16 oz. \$ 1.00 ⅛ oz. \$ 1.50
¼ oz. \$ 2.75 1 oz. \$10.00

PETUNIA NEW DWARF RUFFLED "Garden Giants"

The outstanding feature of this new variety is its satisfactory plant growth. The plants uniformly develop into well-rounded mounds 12-15 inches high. They start flowering when extremely small and continue their gorgeous display all through the summer, holding their size and ruffling even under the adverse conditions of heat and dryness.

Because of its uniformity and continuous blooming, it is by far the best variety of Giant Ruffled Petunias for borders and bedding. A wide variety of bright color combinations.

1/32 oz. \$ 5.50 1/16 oz. \$10.00

PETUNIA "Extra Dwarf Giants of California"

This strain has been bred to fill the need for a truly dwarf pot Petunia. It is by far the best strain for this purpose in existence today. The color range has also been greatly improved and brightened.

½ Tr. Pkt. 75c Tr. Pkt. \$ 1.50 1/64 oz. \$ 3.25
1/32 oz. \$ 6.00 1/16 oz. \$11.00

VERBENA HYBRIDA GRANDIFLORA "Salmon Pink" (New Bush Type)

Plants grow more erect, making a broad flat-topped, bushy plant about 8-10 in. high and 12-15 in. across, with the flower heads practically touching each other. A row of them makes an even and uniform band or border closely covered with flowers over a very long blooming season. Large broad-petalled flowers of an unusually pleasing shade of bright salmon-pink, each with a small white eye.

"TETRA SNAPS" Giant Ruffled Tetraploid Snapdragons

Triumph of the plant scientists after years of experimenting with colchicine, and selecting to get the finest stock—the Snap Sensation that all the Garden Magazines are talking about—. Largest flowered of all Snapdragons, many beautiful colors and combinations, some never before seen in Snaps. Under general field conditions the central spikes average 2½ ft. tall, surrounded by lateral spikes. Plants are base-branching. More than 60 buds and blossoms have been counted on one spike, with as many as 25 flowers in full bloom at one time.

BURPEE'S RED AND GOLD HYBRID MARIGOLDS

The earliest of all Marigolds; will come into flower in less than eight weeks from seed. A Hybrid between African and French types. Some flowers are solid red while others are delightful combinations of red and gold. The color varies with the season and the growth of the plants. At times it becomes almost pure golden yellow and at other times a bright rich mahogany-scarlet.

PRIMULA MALACOIDES "ERIKSSONI"

ERIKSSON'S OUTSTANDING NEW VARIETIES

Glory of Riverside (Improved). True rose-pink, a strong grower and without a doubt the most valuable variety for all purposes. A real pot plant, especially for 6 or 7 inch pot production, here we suggest placing three plants to the pot.

Eriksson's New Giant. Color resembles closely Glory of Riverside. Very robust habit, with flower size approximately 1½ inches. It is a late bloomer, thereby assuring the florist-grower a longer Primula season.

Eriksson's White Giant. A real pure white. Well adapted to combinations in place of Hyacinths.

Lilac Beauty. A pure soft lilac, absolutely fixed. Another fine color for making up artistic combinations.

Peach Blossom. A real deep peach-blossom pink. It has a compact habit and is an excellent keeper.

Mrs. Eriksson of Riverside. A glowing rose-red of strong compact growth with heavy flower stems and stiff foliage; large flowers in heavy clusters of medium height. It is the most outstanding new variety.

500 seeds.....	\$1.25	2000 seeds.....	\$4.00	6000 seeds.....	\$10.00
